Methodology – America’s Best Customer Service 2021

Summary

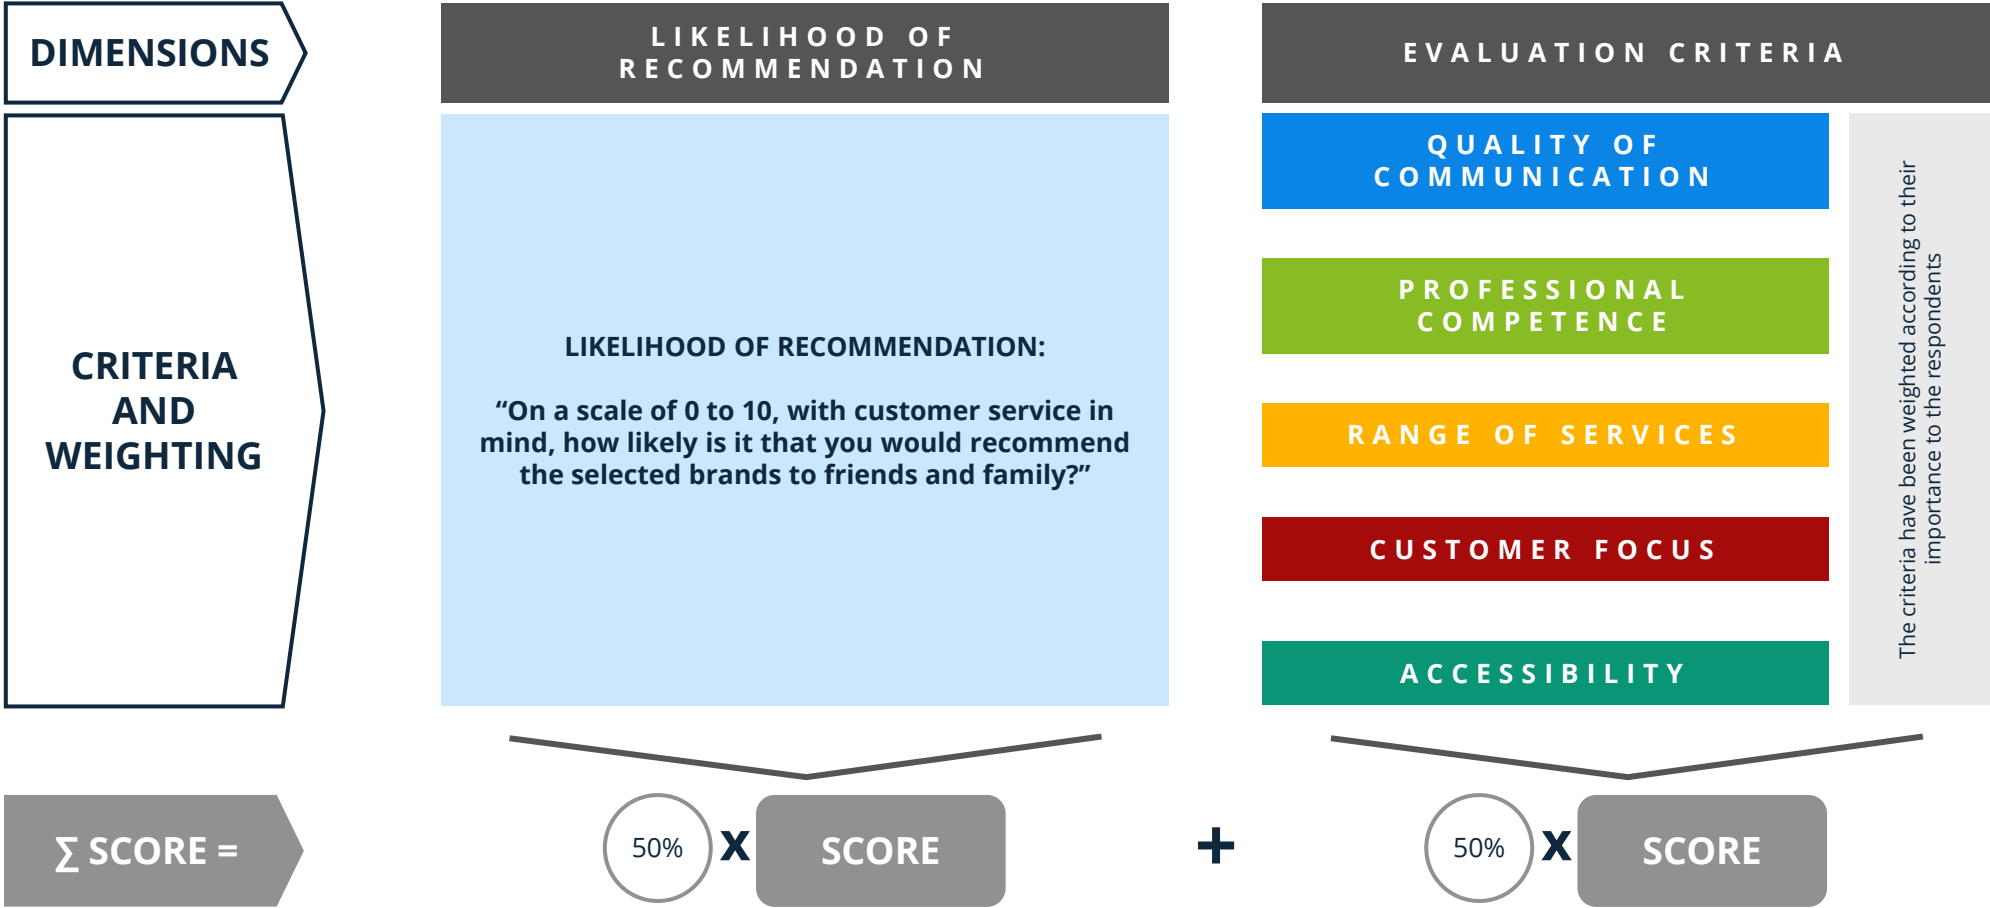

- The 2021 America’s Best Customer Service rankings were identified from the results of an independent survey of more than **25,000 U.S. customers** who have either made purchases, used services, or gathered information about products or services in the past three years. Customers evaluated several brands: in total **160,000 evaluations** were collected. The awarded brands each received **on average close to 100 evaluations** from customers.
- The survey was conducted on retailers and service providers from **160 categories**, providing results for a broad-spectrum of customer experiences in traditional retail, online and service segments. For each category, the most relevant brands were included in the scope of the survey according to reputation, turnover or market share.
 - In the brick and mortar categories, only retailers and service providers present in at least two census regions have been included in the list.
 - In the online categories, only retailers and service providers present mainly online have been included in the list.
 - For retailers and service providers with online presences and store networks, only the core business was taken into account.
- In total the survey took an average of 9-11 minutes to complete and the field period ran from July to August 2020.
- The final assessment and rankings were based on the **Likelihood of Recommendation** (50% of the final score) and five evaluation criteria (also 50% of the final score):
 1. **Quality of communication:** measures whether the contact (via e-mail, telephone or face to face) was friendly or polite.
 2. **Professional competence:** measures the quality of information received and whether questions were answered correctly and in sufficient detail.
 3. **Range of services:** measures the variety of solutions available to fulfill one’s personal expectations.
 4. **Customer focus:** measures whether the customer feels acknowledged and important.
 5. **Accessibility:** measures the availability of customer service in a shop or on a helpline.

The top 3-5 brands based on category size receiving the highest scores in each category were awarded as America’s Best Customer Service 2021

Methodology –The six criteria to build the score

Overview

Weighting of importance for 5 dimensions

Survey participants asked to rank each dimension of customer service by importance

Weighting*

*The dimensions are weighted according to the importance that 25,000 respondents give them in the survey. Displayed above are examples of criteria evaluated.
Q: When you think about customer service, which aspects do you find particularly important?

The analysis of the customer service is based on more than 160,000 customer evaluations

Basis

The survey was conducted using online access panels, providing a representative sample of more than 25,000 American customers. Each of them gave an evaluation of several brands: in total 160,000 evaluations have been collected.

Online access panel

An online access panel is a sample group set up by a survey company and available for custom-built surveys. People register and agree to take part in online surveys.

~25,000 participants

- ✓ Made a purchase, used a service or gathered information about a product or service in the last 3 years

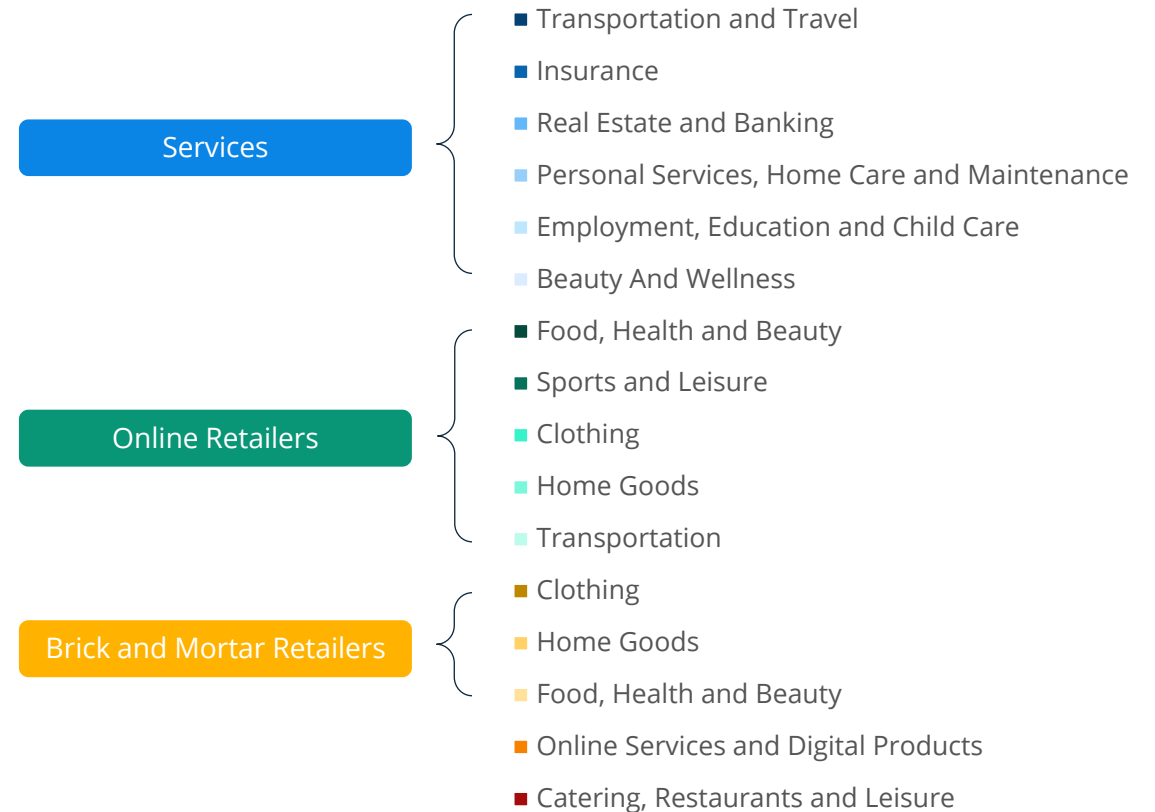

Survey

- ∅ The brands awarded have each received **on average close to 100 evaluations** from customers

The survey covers all types of retailers and service providers

In total, 160 categories are surveyed

Categories (1/9)

Each brand grouped by category
